

Lymphatic System | Sistema Linfatico

#	Term	Definition	Spanish Translation
1	Acquired Immunity	Immunity achieved through exposure to diseases or vaccines.	Inmunidad Adquirida
2	Active Immunity	Immunity developed through an individual's own immune system.	Inmunidad Activa
3	Adenitis	Inflammation of a gland or lymph node.	Adenitis
4	Adenoids	Lymphatic tissue behind the nasal cavity; can obstruct breathing when enlarged.	Adenoides
5	Adenopathy	Enlargement of the lymph nodes.	Adenopatía
6	Allergen	Substance causing an allergic reaction.	Alérgeno
7	Anaphylaxis	Severe, life-threatening allergic reaction.	Anafilaxia
8	Anemia	Condition marked by a deficiency of red blood cells.	Anemia
9	Angioedema	Swelling beneath the skin often associated with severe allergy.	Angioedema
10	Antibody	Protein that the immune system uses to neutralize pathogens.	Anticuerpo
11	Antigen	Substance that triggers an immune response.	Antígeno
12	Autoimmune Disease	Disease where the body's immune system attacks its own cells.	Enfermedad Autoinmune

13	B Cells	Type of lymphocyte involved in producing antibodies.	Células B
14	Bone Marrow	Soft tissue in bones that produces blood cells.	Médula Ósea
15	CBC (Complete Blood Count)	Blood test that measures the quantity of various types of blood cells.	Conteo Sanguíneo Completo
16	Cytokine	Proteins secreted by certain cells that affect the behavior of other cells.	Citoquina
17	Dendritic Cells	Immune cells that process antigen material and present it on the cell surface.	Células Dendríticas
18	Diffuse Large B-Cell Lymphoma	Type of non-Hodgkin lymphoma affecting large B cells.	Linfoma Difuso de Células B Grandes
19	DNA	Deoxyribonucleic acid, the carrier of genetic information.	ADN
20	Flare-up	Worsening of symptoms of a disease.	Rebrote
21	Hemoglobin	Protein in red blood cells that carries oxygen.	Hemoglobina
22	Histamine	Chemical involved in local immune responses, associated with allergic reactions.	Histamina
23	HIV	Virus that progressively damages the immune system, leading to AIDS.	VIH
24	Hodgkin's Lymphoma	Type of lymphoma characterized by the presence of Reed-Sternberg cells.	Linfoma de Hodgkin

25	Hypersensitivity	Exaggerated response by the immune system to allergens.	Hipersensibilidad
26	Immune System	The body's defense against infectious organisms and other invaders.	Sistema Inmune
27	Immunization	Process of inducing immunity to a specific disease.	Vacunación
28	Immunoglobulin	Antibody used by the immune system to neutralize pathogens.	Inmunoglobulina
29	Immunologist	Doctor specializing in the immune system.	Inmunólogo
30	Immunosuppression	Reduction of the immune response, which can occur naturally or via medications.	Inmunosupresión
31	Innate Immunity	Immunity that is present at birth.	Inmunidad Innata
32	Leukemia	Cancer of the blood or bone marrow characterized by the abnormal increase in white blood cells.	Leucemia
33	Leukocytes	White blood cells involved in the body's immune response.	Leucocitos
34	Lupus	Chronic autoimmune disease that can affect skin, joints, and organs.	Lupus
35	Lymph Nodes	Small glands that filter lymph, trapping bacteria and other microorganisms.	Ganglios Linfáticos
36	Lymph Vessels	Channels that carry lymph throughout the body.	Vasos Linfáticos

37	Lymphangitis	Inflammation of the lymph vessels.	Linfangitis
38	Lymphocyte	Type of white blood cell that is a key part of the immune system.	Linfocito
39	Lymphoma	Cancer that begins in infection-fighting cells of the immune system.	Linfoma
40	Macrophages	Cells that devour invading pathogens and infected cells.	Macrófagos
41	Pathogen	An agent that causes disease, especially a living microorganism.	Patógeno
42	Plasma	The liquid part of blood and lymphatic fluid, which carries cells and proteins throughout the body.	Plasma
43	Plasmapheresis	Medical procedure filtering blood and removing harmful antibodies.	Plasmaféresis
44	Spleen	Organ involved in producing and removing blood cells.	Bazo
45	Stem Cells	Cells capable of developing into different types of cells in the body.	Células Madre
46	T-Cells	Type of lymphocyte involved in the immune response.	Células T
47	Thoracic Duct	Major lymphatic vessel that drains lymph from the body.	Ducto Torácico
48	Thrush	Infection caused by the Candida fungus, typically in the mouth or throat.	Candidiasis Oral

49	Thymus Gland	Gland in the chest where T cells mature.	Glándula Timo
50	Tonsils	Collections of lymphoid tissue facing into the aerodigestive tract; part of the immune response.	Amígdalas
